

#### FORTUNE FAVOURS THE BOLD

Some people sit and watch adventure programmes, thinking one day, maybe, they'll have their own.

But you, well you're different. You don't sit and wait for the right opportunity, no you seize the day. For you dreaming about something and doing it are two different things. You don't just want to hear about other people's adventures. You want to tell the stories of your own.

Quintrex boats are built for the doers. They are built for the adventurers, the fun seekers, the explorers and the memory makers. There are thousands of stories in every Quintrex boat, which one will be yours?

#### SMOOTHER RIDE

The future of aluminium boating has changed forever as the Apex Hull delivers unbelievable on water performance created by a combination of these key factors:

The flare is carried further aft to maintain continual contact with the water when on the plane creating an even, smooth ride.

The wider, sweeping chine design opens the front of the hull to allow the flaring to carry further forward up the stem line, consequently improving rough water performance. By widening the chine on the Apex Hull, Quintrex have achieved increased stability and grip when cornering.

The increased surface area at the bow of the Apex Hull provides much greater lift, ensuring a level attitude.

# great things take time

After years of research, Quintrex has released the Apex Hull design set to revolutionize the boating industry. From humble beginnings in 1945 Quintrex has remained the leader in aluminium boat research and development for over 70 years. True to its name, the Apex Hull offers the pinnacle of boating with years of research and development leading to superior performance on the water – You have never seen a boat quite like this before!

#### 20% INTERNAL VOLUME INCREASE ......

The Apex Hull keeps giving with even more internal room making sure it is one of the most user-friendly hulls on the market.

The new RSD (Raised Side Decks) featured on selected Apex models is fully-welded and increases the overall internal volume of the boat by 20%. The new RSD also increases freeboard by 80mm, offering extra comfort, safety and fishability. Combine this with a compact side deck design which maximises internal width in the Apex Hull.

The overall footprint of the Apex Hull has increased by 5%; the forked bow creates room for a large bow seating area on Freestyler models and a large casting platform on Frontier models.

#### **5%** FOOTPRINT INCREASE

wider
bow seating
CREATED BY
FORKED BOW

#### harder, better, stronger

The Apex Hull not only provides ultimate on-water performance but are truly built tough to last with increased Hull strength created with 4mm bottom sheets and 3mm side sheets of pressed marine grade aluminium across the Frontier & Freestyler ranges. The 630 size models even receive a standard upgrade to 5mm.

## leading design

The Apex Hull stands out as one of the most innovative and modern hull designs you will see on the water. The lines of the Apex Hull combined with the forked bow and sleek windscreen profile\* provide a refreshing, modern look to aluminium boat design, one that has never been seen before that is for sure.

# A HULL for EVERY WATER

#### QUITREX PATENTED TECHNOLOGY

Quintrex's aluminium boats feature technology-driven hulls that leave competitors in the wake. Our unique ability to stretch form aluminium allows us to create shapes only previously made in fibreglass, delivering the softest, driest riding aluminium boats on the market.

#### blade hull

Our blade hull cuts through rough water like a knife with its sharper, sleeker shape and increased deadrise. By releasing spray further aft you get an even drier ride, and if that's not enough our blade hull has increased hull efficiency by balancing the convex and concave shapes offering lower planning speeds and improved top-end speed!

#### flared bow

The concave shape of the flared bow is made possible by our unique ability to stretch form aluminium. The curve of side sheets deflects spray and keeps passengers dry. In rougher conditions such as in breaking seas and solid water the flared bow aids in lift and recovery.

#### eclipse hull

This hull combines the stability of a traditional punt with the handling of a v-shaped hull. Its v-nose design allows the wide beam to be brought forward to the bow. This design allows for all-round stability, aids planning and disperses choppy water.

#### fighter series bow

Our fighter series features a forked shaped bow which not only sees the front deck and casting platform area increased by up to 11% but improves stability at rest - making fishing from the casting platform a breeze. The fighter series is the new face of fishing with more storage and easy installations of electric motors. \*\*

\*\*The fighter series bow can now be seen across the hornet range and on explorer models 390 and above.

#### why buy quintrex?

#### **5 YEAR WARRANTY**

Quintrex will now be offering an additional 2 year bonus structural warranty after the existing 3 year warranty expires. This provides the customer with a total of 5 years factory backed warranty on any new boat purchases. Qualifying for your extended warranty is easy just follow our dealer maintenance schedule as outlined in your Owner's Manual. \*\*

#### DEALER NETWORK

Quintrex has an extensive dealer network with over 60 dealers in Australia alone. Help is never far away whether you are looking for servicing, advice or boating accessories. Our dealer network has an abundance of knowledge about the Quintrex range and the marine industry.

#### BEST RESALE VALUE IN THE MARKET

Only the best hold their value and Quintrex boats have a reputation for the best re-sell value in the market. Quality is the key when it comes to Quintrex – every boat is loved for years to come, so you can rest assured selling a second hand Quintrex is a rewarding experience.

#### **AUSTRALIAN MADE**

Quintrex boats are all hand built at their Gold Coast based factory in Queensland, Australia. In fact, Quintrex has been proudly Australian made since 1945. The Quintrex Factory employs a team of expert welders, carpenters, and painters and utilises the latest technology and manufacturing processes to create the best quality products to last a lifetime. As the largest manufacturer in the Southern hemisphere, the Quintrex factory can produce up to 20 boats a day.

#### A BOAT TO SUIT EVERYONE

Quintrex offers a huge range of boat models with over 100 in their range. So whatever you are after whether it's a tough offshore fishing rig or a family runabout Quintrex have you covered. With a designated Research and Development team Quintrex is constantly looking to improve and introduce new models that our customers want and stay ahead of the competition.

# quintrex factory & construction

Since Quintrex began building boats in 1945, it has strived to offer the most high-quality boats possible. Whether it is a boat fresh off the factory floor, or grandad's boat from back in the day, Quintrex Quality can be seen in every detail.

The founding fathers, Terry Quantrill and Arthur Arnold, combined their skills in stretch formed metal with their passion for fishing to make Quintrex boats. Following the second world war, the duo set out to improve Australian boats by designing hulls with the most soft and dry ride possible.

A unique advantage to Quintrex is its stretch forming heritage and capabilities. The machinery needed to stretch form accurately includes a purposebuilt hydraulic system that shapes flat aluminium by elongating it over a precise forming die. These stretch formed shapes make boating in a Quintrex safer and more enjoyable while utilising the superior characteristics of aluminium.

By changing the shape of the aluminium, the metal goes through a process called 'Work Hardening'. When used in the right instance, the overall strength of the material increases. Quintrex's stretch forming process alters the crystal structure of the aluminium to make it stronger, whilst retaining the shape and superior characteristics of both soft and dry hulls.

Today, the combination of manufacturing excellence and unique abilities in stretch forming is what has bred the 'Blade Hull', 'Flared Bow' and flagship 'Apex Hull'. When underway, these hull designs have a sharp entry for predictable and comfortable handling. The Quintrex Quality and superior manufacturing abilities are what inherently stands behind the Quintrex Brand.

At the factory on the Gold Coast, 270 highly skilled workers are the masterminds behind each Quintrex boat. The best in the trade, Quintrex Quality can be seen in each section of the factory from cutting and forming, to welding, to prep, to paint to finishing.

Looking at where the company is today, it is obvious that the founding fathers would be overjoyed to see quality is at the forefront and continued innovation has made Quintrex become the most desired boats in all of Australia.

# LOWRANCE®

#### Lowrance Hook<sup>2</sup> Series

The HOOK<sup>2</sup> Series of fish finder/chartplotter combos boasts features and functions normally found on high-end fish-finding gear but at prices that are easy to afford. DownScan, SideScan, GPS navigation and premium chartplotting are now available for all anglers.

#### Lowrance Elite Ti<sup>2</sup> Series

Featuring support for Active Imaging™, FishReveal™ and built-in Australian Coastal charts and Genesis Live onscreen mapping, the Elite Ti² fishfinder/chartplotter is big enough for use as standalone display, but has a small enough footprint to be a perfect fit for boats with limited console space.

#### **Check your options...**

A guide to choosing the best electronics for your new Quintrex boat.

All Quintrex boats are standard fit with the Active Imaging™

Transducer - just select your desired display unit below.

#### **Active Imaging™ Transducer**

Perfect for pinpointing fish-holding areas like rockpiles, standing timber, weedbeds, ditches and drop-offs, new Active Imaging™ sonar delivers the most superior clarity and the highest resolution images of fish and structure at a longer range than any other structure-imaging technology.

#### **Lowrance HDS Live**

Equipped with the best set of navigation tools ever built into a fishfinder/chartplotter display, HDS LIVE features preloaded C-MAP® Australian Coastal mapping, automatic routing support and new Genesis Live onscreen mapping offering precision real-time mapping, down to ½-foot contours.

#### THE PERFECT COMPANION FOR YOUR QUINNIE

When you buy a Quintrex Instant Boating Package with an Evinrude outboard and Quintrex trailer you're buying a product backed and distributed by Australia's largest aluminium boat manufacturer.

Forget everything you know about a traditional 2stroke outboard engine - Evinrude Direct Injection 2stroke offers the best performance, most intelligent design and cleanest technology meaning the lowest emissions in its class.

#### NEW ETEC 2 STROKE TECHNOLOGY

Evinrude E-TEC is a direct injection two-stroke system controlled by an engine management module. This means an exact amount of fuel/oil that is needed is injected directly into the cylinder. The fuel-delivery technology that allows engines to operate more efficiently, resulting in more power, cleaner emissions, and increased fuel economy.

#### EASY TO OWN & OPERATE

- Fewer parts, fewer problems, fewer repairs. More time on the water!
- Fewer scheduled dealer services
- No break-in period or oil changes
- Clean & quiet
- Lower emissions
- Evinrude is the only brand to win the EPA's Clean Air Technology Excellence Award in 2005

#### DURABILITY, QUALITY & RELIABILITY

- More time on the water. Every part, every system is designed, built and tested to go the distance.
- Easy starts First time, every time. With one revolution of the flywheel.

#### POWER AND PERFORMANCE

- Less fuel You get the precise amount of fuel you need at any given rpm. Not a droplet more!
- Great horsepower to weight ratio
- High torque with fuel injection technology

YOU CAN YOU HAVE THE BEST TORQUE, BEST HANDLING, BEST FUEL ECONOMY AND LOWEST MAINTENANCE COSTS ALL IN THE ONE OUTBOARD.

#### 510 sea spirit

The 510 Sea Spirit is the perfect boat to get your family out on the water. Perfect for cruising around the bay or fishing for the weekend complete with durable aluminium side pockets and a rear lounge for relaxing.

#### 530 sea spirit

The beauty of the 530 Sea Spirit is the versatility; it can take you anywhere. This compact cabin features a spacious cabin design and rear lounge perfect for weekends away with the family or long fishing trips with your mates.

#### 570 sea spirit

Durable and tough, you'll always have peace of mind cruising in a 570 Sea Spirit. This boat is made tough to handle a variety of conditions with smooth, plate look sides, 4mm bottom sheets and the Blade Hull.

#### 510 ocean spirit

After a long day out on the water the kids will love resting on their way back in the spacious cabin. The Blade Hull ensures a superb ride on this model and safety for the family.

#### 530 ocean spirit

If you're after a little bit of luxury in a compact package, this is the model for you. With plenty of features included as standard like the new Rear Folding Lounge and walk-through cabin hatch.

#### 570 ocean spirit

However you wish to spend your time on the water, the 570 Ocean Spirit is the perfect platform. This deluxe cabin is perfect for the family whether it's water sports, just cruising around or some serious fishing. Rated up to a 150HP you will love taking this cabin out on the weekend.

Australian made winches and mooring equipment since 1968

We are proud to announce our partnership with Muir Winches to supply Australian-made, quality drum winches across our range of models. Like us, Muir is an experienced company which has been looking after the Australian boat owner for decades. The Tasmanian-based company supplies equipment to a wide range of vessels around the world, from pleasure boats, to commercial vessels, to superyachts.

The Muir and Quintrex research and development teams have collaborated to develop a new, compact drum winch, Muir DW06, designed specifically for our smaller boats. This winch is designed to fit into your anchor locker and provide 55 meters of anchor line capacity. Depending on model, your Quintrex can be fitted with the DW06 or DW08, or with the option of the Muir freefall DFF08.

**Features** 

MUIR DRUM WINCH FEATURES (Models DW 06 / 08 and DFF 08)

- + Designed and made in Australia
- 316 Stainless Steel heavy weight drum
- + 3 Year Limited Warranty
- Tangle free rope and chain operation
- Mechanical auto and manual release free fall (DFF08 model)
- + Fast recovery with ease of operation
- Electrical components
   Quintrex factory fitted
   (Includes reversing solenoid, 100 AMP circuit breaker and Rocker switch)
